

## SETTING UP YOUR NL402 BACKPACK 190446

### **1. Assemble Pump Handle**

Slide handle onto shaft and line up holes. Thread bolt through handle and shaft and securely tighten. Thread on lock nut and tighten using a 13mm (or adjustable) wrench. Handle can be mounted on left or right depending on user preference. See manual for all information of backpack. (**See Figure A**)

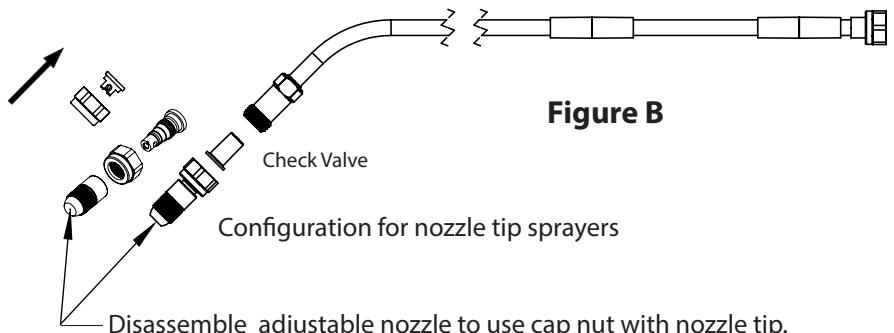

**Figure A**

### **2. Assemble 18" Brass Wand**

Place 176332 check valve inside of 182659 brass wand. Then place nozzle on top and screw into place (**See Figure B**)

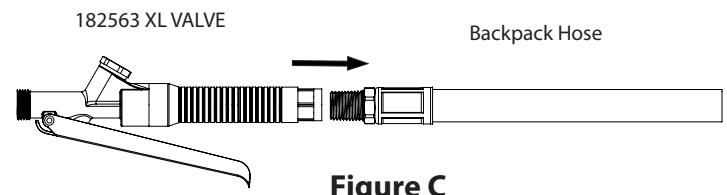

**NOTE: Check valve must always be used.**

**Figure B**

### **2. Assemble XL Valve to Hose**

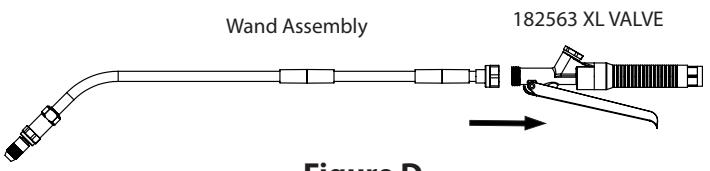

Screw on XL Valve to end of hose from backpack  
(**See Figure C**)

**Figure C**

### **3. Assemble Wand to Shut-off**

Screw on Wand Assembly to Shut-off (**See Figure D**)

**Figure D**
